# Auditor's Report

---

Vienna, Maine.

## COMMENTS

### General:

At the close of the 1947 fiscal year, the Town of Vienna was in very good financial condition. It has a surplus of nearly \$5,000, much of it in cash. Collections of taxes were good during the year. There was a decrease in surplus caused principally by the purchase of needed fire equipment.

### Cash:

The cash of the Treasurer was all deposited in the bank at the close of the year and appeared correct. Receipts appear to have been deposited currently.

### Records:

The records of the selectmen, treasurer and collector were all very well kept.

The auditor wishes to thank the town officials for their courtesy and cooperation.

### Town Clerk:

Record of Meeting of Mar. 3, 1947 appears in order and has constable's return of warrant.

Bonds of Town Officers do not appear in record. 1948 Treasurer's and Tax Collector's bonds recorded and Town Clerk has Road Commissioner's bond.

Balances in Poor Account are required by law to be carried forward from year to year.

Question if Aid to Dependent Children can be charged to Pauper Account as recipients by law are not paupers.

Possible Solution: Leave Aid to Dependent Children as overdraft and carry unexpended balance in poor account forward next year and make no appropriation for poor then, but make appropriation for A. D. C.

Valuation Book should complete certificate of assessment.

The above balance sheet summarizes the financial condition of the town during the 1947 fiscal year. Under Assets is listed property held by the town. The Liabilities indicate for what purpose the property is held. The town's equity is included in the Surplus and the Reserve for Town Owned Property. The Reserve for Tax Acquired property is really a reserve to cover uncollectable taxes and tax liens. Over-

drafts carried forward are assets where they may be recoverable or for reasons of bookkeeping. Balances forward are liabilities where they may be required to be spent. The items which go to make up the items of the above balance sheet are listed in the various schedules of this report. See the index, also Exhibit D.

### HEALTH

Again this year, according to law, samples of the water used by each school for drinking and culinary purposes were submitted to the State Department of Health and Welfare for chemical and bacteriological analysis. They have all been reported satisfactory.

In order to comply with the law, all teachers, janitors, school lunch cooks, bus drivers or any others who come in contact with the students must, every two years, submit to a chest X-Ray. This examination will be required again during the year 1949. We will be fortunate to have access to the mobile unit used for this purpose on Friday, May 13, 1949, at the Wilbert G. Mallett School, Farmington. Teachers will be taken care of in the morning and all others in the afternoon on that day.

### TEACHERS

Mrs. Barbara Mason, who has been attending special classes at the Farmington State Teachers' College this year has earned the required credits to become a certified teacher.

About two years ago in School Union No. 40, which includes the towns of Mercer, Mount Vernon, New Sharon, Rome, Starks and Vienna a teachers' association was organized, which is known as The Franklin, Kennebec, Somerset Teachers' Association. This has proved to be a very worthwhile organization. The members meet in one of the towns on the third Thursday of each month. A supper is followed by a business meeting and program.

The program this year has been planned to cover the fields of Arithmetic, Language, Social Studies, Spelling and Writing, Reading and Physical Education. Report on modern methods, new teaching procedures or a demonstration of actual work with children by a teacher are given and then followed by a discussion and question period, in which all teachers participate, giving reports of results obtained and ideas from their own experience. This sharing of ideas and discussion of methods and procedures is being recommended by the leading educators today; and the results are already showing in the classrooms.

### EQUALIZATION

In December 1949, the Town of Vienna will receive from the State Equalization Fund the amount of \$528. This is because the law states that the school tax for a town must be above the average for the State if the town is to receive equalization; and the school rate of the several towns for school maintenance in the State is .02483.

Our school tax rate of .03576 is arrived at by dividing our local school maintenance appropriation, which is \$5,400.00 by the State valuation of the town, which is \$151,000.

# **Annual Report of Public Health Nurse**

VIENNA — 1948

---

A good Public Health Nursing Program is possible only when a community knows its health needs and desires to do something about meeting those needs. One way of doing this is to support and help with the health activities available to your community through your Public Health Nursing Program.

It is only through your cooperation that your Public Health Nurse is able to submit the following report for 1948.

During the eleven visits to your community the nurse made eighteen supervisory home visits to mothers, infants, preschools and school children. Follow-up visits were made to families who had been in contact with patients suffering from tuberculosis. Plans were made for contacts to be x-rayed at the regular community x-ray clinics.

Three Child Health Conferences were held in Mt. Vernon with your Vienna children in attendance. One child was protected against Smallpox and two against Diphtheria and Whooping Cough. The children received physical examinations.

Two immunization clinics were held in the schools. Nine children were protected against Smallpox and nineteen against Diphtheria.

Four visits were made to the schools and an opportunity given to the teachers to refer and discuss school health problems. Follow-up visits were made in the homes of the children referred by teachers.

Your public health nurse would like to take this opportunity to thank the school personnel, the town officials and all others who helped in the various health programs during the year.

Respectfully submitted,

RUBY G. BENNETT, R.N.,  
Public Health Nurse.

# Report of Audit

---

Vienna, Maine

## COMMENTS

### General:

At the close of the 1948 fiscal year, the Town of Vienna was in very good financial condition. It had a surplus of over \$5,500, much of it in cash. Collection of taxes was fair, but, due to the condition of business, money is harder to collect now than a year ago.

### Cash:

The cash of the treasurer was all deposited in the bank at the close of the year and appeared correct. Receipts appear to have been deposited currently.

### Records:

The records of the Selectmen, Treasurer and Collector were all well kept.

It is suggested that the Selectmen keep the duplicate copies of the cash sheets. Complete loss of current Tax records as by fire, could cause considerable loss to the town. It should be little trouble to file the duplicate copies at the Town House in the safe.

### Town Clerk's Records:

Warrant for meeting of Mar. 1, 1948 and constable's return of warrant appear in order.

Bonds of Town officers and Treasurer's and Collector's bond — \$2,000; Norman E. Waite Principal and American Fidelity Co., Montpelier, Vermont, Surety.

Road Commissioner's bond, \$500; Sadie F. Kelley and Donald L. Duley — Sureties.

Both bonds have been recorded by the clerk and appear in order.

The auditor wishes to thank the Town Officials for their courtesy and cooperation.

The above balance sheet summarizes the financial condition of the town at the start and close of the 1948 fiscal year. Under "Assets" is listed property held by the town. The "Liabilities" indicate for what purpose the property is held. The town's equity is in Surplus

and Town Owned Property. The Reserve for Tax Acquired Property is really a reserve for uncollected taxes and tax liens. Overdrafts carried forward are listed as assets where they are recoverable or for reasons of bookkeeping. Balances forward are liabilities where they may be required to be spent. The items which go to make up this balance sheet are listed in the various schedules of this report. See also columns 1 and 7; and 15 and 16 of Exhibit D.

# **Annual Report of Public Health Nursing Services**

---

VIENNA — 1949

Public Health Nursing is a program designed to encourage the best possible habits of living in order that maximum health may be maintained. Prevention and protection play a great part in this program, and the support and assistance by the members of your community have helped greatly to make this possible.

Members of the staff are convinced that a Health Council is essential in each community in order that the maximum benefits may be derived from the service.

During the six visits to your community the nurse made supervisory home visits to all types of cases. Follow-up visits were made to families who had been in contact with patients suffering from Tuberculosis.

Visits were made to the schools and an opportunity was given to the teachers to refer and discuss school health problems. Follow-up visits were made in the homes of the children referred by the teachers.

Three Child Health Conferences were made available to Vienna children at Mt. Vernon.

Your Public Health Nurse takes this opportunity to thank those who helped in the various health programs during the year.

Respectfully submitted,

RUBY G. BENNETT, R. N.,

### HEALTH

Again this year, according to law, samples of the water used by each school for drinking and culinary purposes were submitted to the State Department of Health for analysis.

### TEACHERS

Mrs. Clara Fitz of New Sharon was elected to fill the vacancy created when Mrs. Barbara Mason resigned to fill another position in the Union. Mrs. Fitz has been teaching at the Sevey School since school opened, Sept. 6.

I feel both of our teachers have put much thought and effort into enriching our school program this year. Mrs. Kelley, with the assistance obtained from the Federal Government, has carried out a Class A lunch program. This provides a complete meal for the children at noon during the cold months of the school year. Although this takes much planning, the benefits derived in the development of the children is well worth the work put into it. Mrs. Fitz has developed a Rhythm

Band and has taught the children in the upper grades to read music. They have presented programs for the F. K. S. Teachers' Club and the Vienna Grange; and at Christmas gave a short operetta. The children and parents, alike, have enjoyed these activities. The children not only get pleasure in participating, but enjoy giving pleasure to others.

### EQUALIZATION

In December 1950, the Town of Vienna will receive from the State Equalization Fund the amount of \$812. This is because the law states that the school tax for a town must be above the average for the State if the town is to receive equalization; and the school rate of the several towns for school maintenance is .02549, while our school tax rate is .02922. This is arrived at by dividing our local school maintenance appropriation, which is \$4,500 by the State valuation of the town, which is \$154,000. We would have received \$930, if the State had appropriated money enough to pay its school obligations under the State law.

### FINANCES

The financial statement accompanying this report shows the total receipts and disbursements of the school department for the year ending February 4, 1950. The total receipts in the common school and high school tuition fund were \$8,180.43, in the repairs account \$500. The total disbursements in the common school and high school tuition fund were \$7,345.97. The balance in the common school tuition fund is \$834.46. The overdraft in the repairs account is \$335.52.
